PROFESSIONAL SUMMARY

Software Engineering graduate with strong computer and programming skills. Experienced in developing web applications and software projects including bots and task management systems. Highly motivated, detail-oriented, and passionate about writing clean, efficient, and sustainable code.

TECHNICAL SKILLS

- ▶ Web Development (Frontend & Basic Backend)
- ▶ HTML, CSS, JavaScript
- ▶ Programming & Software Development
- ▶ Discord Bot Development
- ▶ Task Management Systems
- ▶ Debugging & Problem Solving
- ▶ Git (Basic Version Control)
- ▶ PC & Software Troubleshooting

PROFESSIONAL EXPERIENCE

Software Engineering Internship - Skyistan Technology Istanbul, Turkey | March 2026 – June 2026

- ▶ Developed and maintained software applications while following clean coding practices.
- ▶ Worked on web development projects, implementing features and improving functionality.
- ▶ Tested applications, identified bugs, and performed debugging to improve reliability.
- ▶ Assisted with software development tasks, problem-solving, and technical improvements.
- ▶ Collaborated on projects and gained experience with application design, development, and Git.

EDUCATION

Bachelor of Software Engineering (Lisans Degree)
Nisantasi University, Istanbul, Turkey - Duration: 4 Years

July 2026

LANGUAGES

Arabic – Native • **English** – Fluent • **Turkish** – Good

CERTIFICATIONS

Introduction to JavaScript Programming

Issued: May 2026

Skills: JavaScript Fundamentals, Variables, Functions, DOM Manipulation, Control Structures, Problem Solving

Introduction to HTML, CSS, & JavaScript
